

## **11-6-313 Types of Signs**

### **(12) Projecting Signs**

Sign Districts where Allowed – Projecting Signs are allowed in Sign District A on buildings with no front setback -subject to issuance of an encroachment permit by Springville City.

Permit Required – A sign permit is required, along with an encroachment permit when projecting over public sidewalk.

Location – The sign shall be attached to a building wall and may project a maximum of seven (7) feet from the front of the elevation to which it is attached.

Height/Area – The projecting sign shall meet clearance requirements as described in General Provisions. The maximum sign area for such a sign is twenty-five (25) square feet. The area shall be calculated as part of a wall sign.
